Commenting on the Company's results, Benjamin W. Schall, President and CEO of the Company, said "Our second quarter was strong, exceeding expectations, and the results reflect the enduring qualities of our business — a high-quality portfolio in supply-constrained markets, a proven operating platform, and teams that execute with consistency and discipline.

"We are proud of AvalonBay's over 30-year history as one of the leading public multi-family operators and developers. The proposed combination with Equity Residential now provides the opportunity to draw on the foundational strengths of two exceptional organizations to create the premier company in rental housing in the country. The scale, the talent, the portfolio, the operating capabilities and the investment opportunities all come together in ways that neither company could achieve alone. We're extremely excited for our future and look forward to sharing more later this year."

The following table compares the Company's actual results for EPS, FFO per share and Core FFO per share for the three months ended June 30, 2026 to its results for the prior year period:

The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. The Company's forward-looking statements generally use the words "believe," "expect," "anticipate," "intend," "estimate," "assume," "project," "plan," "may," "shall," "will," "pursue," "outlook" and other similar expressions that indicate future events and trends and do not report historical matters. These statements, among other things, address or reflect the Company's intent, belief, forecasts, assumptions or expectations with respect to: development, redevelopment, acquisition or disposition of communities; the timing and cost of completion of communities under development or redevelopment; the timing of lease-up, occupancy and stabilization of communities; pursuit of land for future development; the anticipated operating performance of communities; cost, yield, revenue, NOI and earnings estimates; the impact of landlord-tenant laws and rent regulations, including rent caps; the Company's expansion into new regions; declaration or payment of dividends; joint venture activities; the Company's policies regarding investments, indebtedness, acquisitions, dispositions, financings and other matters; the Company's qualification as a REIT under the Internal Revenue Code of 1986, as amended; the real estate markets in regions where the Company operates and in general; the availability of debt and equity financing; interest rates, inflation, tariffs and other economic conditions and their potential impacts; trends affecting the Company's financial condition or results of operations; legal and regulatory changes; the impact of legal proceedings; the proposed transaction between the Company and Equity Residential; the expected timing and completion of the proposed transaction; and the anticipated benefits of the proposed transaction.

The Company cannot assure the future results or outcome of the matters described in these statements; rather these statements reflect the Company's current expectations of the outcomes of the matters discussed. The Company does not undertake a duty to update these forward-looking statements, and therefore they may not represent the

Company's estimates and assumptions after the date of this release. You should not rely on forward-looking statements because they involve risks and uncertainties and other factors, some of which are beyond the Company's control. These risks, uncertainties and other factors may cause the Company's actual results, performance or achievements to differ materially from the anticipated future results, performance or achievements expressed or implied by these forward-looking statements. You should carefully review the discussion under Part I, Item 1A. "Risk Factors" of the Company's Form 10-K for the year ended December 31, 2025 and Part II, Item 1A. "Risk Factors" in subsequent quarterly reports on Form 10-Q, as well as the risks described in the Definitive Joint Proxy Statement/Prospectus (as defined below) that has been filed with the SEC in connection with the proposed transaction and is available from the sources indicated below, for further discussion of risks associated with forward-looking statements.

Some of the factors that could cause the Company's actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, but are not limited to, the following: the Company may fail to secure development opportunities due to an inability to reach agreements with third parties to obtain land at attractive prices or to obtain desired zoning and other local approvals; the Company may abandon or defer development opportunities for a number of reasons, including changes in local market conditions which make development less desirable, increases in costs of development, increases in the cost of capital or lack of capital availability, resulting in losses; construction costs of a community may exceed original estimates; the Company may be unable to complete planned dispositions, or may complete such transactions on different timing or terms than expected; the Company may not complete construction and lease-up of communities under development or redevelopment on schedule, resulting in increased interest costs and construction costs and a decrease in expected rental revenues; occupancy rates and market rents may be adversely affected by competition and local economic and market conditions which are beyond the Company's control; the Company's cash flows from operations and access to cost-effective capital may be insufficient for the development of the Company's pipeline, which could limit the Company's pursuit of opportunities; an outbreak of disease or other public health event may affect the multifamily industry and general economy; the Company's cash flows may be insufficient to meet required payments of principal and interest, and the Company may be unable to refinance existing indebtedness or the terms of such refinancing may not be as favorable as the terms of existing

indebtedness; the Company may be unsuccessful in its management of joint ventures and the REIT vehicles that are used with certain joint ventures; the Company may experience a casualty loss, natural disaster or severe weather event, including those caused by climate change; new or existing laws and regulations implementing rent control or rent stabilization, or otherwise limiting the Company's ability to increase rents, charge non-rent fees or evict tenants, may impact its revenue or increase costs; the Company's expectations, estimates and assumptions as of the date of this filing regarding legal proceedings may change; the Company's assumptions and expectations in its financial outlook may prove to be too optimistic; the Company may choose to pay dividends in its stock instead of cash, which may result in stockholders having to pay taxes with respect to such dividends in excess of the cash received, if any; investments made under the SIP may not be repaid as expected or the development may not be completed on schedule, which could require the Company to engage in litigation, foreclosure actions, and/or first party project completion to recover its investment, which may not be recovered in full or at all in such event; the Company may be unable to complete the proposed transaction with Equity Residential on the proposed terms or on the anticipated timeline, or at all, including as a result of the failure to obtain the required respective stockholder or shareholder, as applicable, approval; the Company may not realize the anticipated benefits of the proposed transaction due to delay in completing the proposed transaction; the Company may face significant transaction costs and/or unknown or inestimable liabilities relating to the proposed transaction; the Company may face disruptions resulting from the proposed transaction, including the diversion of management's attention from ongoing business operations, which may harm the Company's business during the pendency of the proposed transaction or otherwise; the Company may face certain restrictions during the pendency of the business combination that may impact its ability to pursue certain business opportunities or strategic transactions; the possibility that the business combination may be more expensive to complete than anticipated, including as a result of unexpected factors or events; the occurrence of certain events that may result in the termination of the merger agreement; and the Company's financial performance may be affected by potential business uncertainty during the pendency of the business combination.

## Definitions and Reconciliations

Non-GAAP financial measures and other capitalized terms, as used in this earnings release, are defined, reconciled and further explained on Attachment 11, Definitions and Reconciliations of Non-GAAP Financial Measures and Other Terms. Attachment 11 is included in the full earnings release available at the Company's website at <https://investors.avalonbay.com>. This wire distribution includes only the following definitions and reconciliations.

Average Monthly Revenue per Occupied Home is calculated by the Company as Residential revenue in accordance with GAAP, divided by the weighted average number of occupied apartment homes.

Capitalized Community Expenditures includes Asset Preservation Capex and NOI Enhancing Capex.

- Asset Preservation Capex represents capital expenditures that the Company does not expect will directly result in increased revenue or expense savings.
- NOI Enhancing Capex represents capital expenditures that the Company expects will directly result in increased revenue or expense savings, and excludes any capital expenditures for redevelopment activities.

Both Asset Preservation Capex and NOI Enhancing Capex exclude costs associated with our Development communities under construction, including post-construction close out costs, as well as capital expenditures associated with newly acquired communities that were contemplated as part of the initial investment in the community. The Company's Residential Capitalized Community Expenditures for Same Store and Non-Same Store operating portfolios during the six months ended June 30, 2026 are as follows (dollars in thousands):

|                | Apartment Homes | Asset Preservation |          | NOI Enhancing |          |
|----------------|-----------------|--------------------|----------|---------------|----------|
|                |                 | YTD 2026           | Per Home | YTD 2026      | Per Home |
| Same Store     | 79,473          | \$ 98,066          | \$ 1,234 | \$ 62,268     | \$ 784   |
| Non-Same Store | 6,266           | 8,384              | 1,338    | 1,446         | 231      |
| Total          | 85,739          | \$ 106,450         | \$ 1,242 | \$ 63,714     | \$ 743   |

Commercial represents results attributable to the non-apartment components of the Company's mixed-use communities and other non-residential operations.

Development is composed of consolidated communities that are either currently under construction, or were under construction and were completed during the current year. These communities may be partially or fully complete and operating.

DownREIT Units means units representing limited partnership interests in the "downREIT" partnership that acquired the Dallas-Fort Worth portfolio of six communities in April 2025. Each DownREIT Unit is entitled to receive quarterly distributions at the same rate as quarterly dividends on a share of the Company's common stock (pro rated for the time outstanding during the first quarter of issuance). Following the one-year anniversary of the closing date, each holder of a DownREIT Unit will have the right to initiate a transaction in which each DownREIT Unit may be redeemed for a cash amount related to the then-current trading price of one share of the Company's common stock or, at the Company's election, one share of the Company's common stock.

EBITDA, EBITDAre and Core EBITDAre are considered by management to be supplemental measures of our financial performance. EBITDA is defined by the Company as net income or loss computed in accordance with GAAP before interest expense, income taxes, depreciation and amortization. EBITDAre is calculated by the Company in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("Nareit"), as EBITDA plus or minus losses and gains on the disposition of depreciated property, plus casualty loss and impairment write-downs of depreciated property, with adjustments to reflect the Company's share of EBITDAre of unconsolidated entities. Core EBITDAre is the Company's EBITDAre as adjusted for non-core items outlined in the table below. By further adjusting for items that are not considered part of the Company's core business operations, Core EBITDAre can help one compare the core operating and financial performance of the Company between periods. A reconciliation of EBITDA, EBITDAre and Core EBITDAre to net income is as follows (dollars in thousands):

| Core EBITDAre                                                                | \$ 484,261 |

(1) Includes joint venture interest, taxes, depreciation, gain on dispositions of depreciated real estate and impairment losses, if applicable, included in net income.

Economic Gain is calculated by the Company as the gain on sale in accordance with GAAP, less accumulated depreciation through the date of sale and any other adjustments that may be required under GAAP accounting. Management generally considers Economic Gain to be an appropriate supplemental measure to gain on sale in accordance with GAAP because it helps investors to understand the relationship between the cash proceeds from a sale and the cash invested in the sold community. The Economic Gain for disposed communities is based on their respective final settlement statements. A reconciliation of the aggregate Economic Gain to the aggregate gain on sale in accordance with GAAP for the wholly-owned communities disposed of during the six months ended June 30, 2026 is as follows (dollars in thousands):

TABLE 3

|                                          | YTD 2026   |
|------------------------------------------|------------|
| Net Gain on sale in accordance with GAAP | \$ 179,688 |
| Accumulated Depreciation and Other       | (143,852)  |
| Economic Gain                            | \$ 35,836  |

Economic Occupancy is defined as total possible Residential revenue less vacancy loss as a percentage of total possible Residential revenue. Total possible Residential revenue (also known as "gross potential") is determined by valuing occupied units at contract rates and vacant units at Market Rents. Vacancy loss is determined by valuing vacant units at current Market Rents. By measuring vacant apartments at their Market Rents, Economic Occupancy takes into account the fact that apartment homes of different sizes and locations within a community have different economic impacts on a community's gross revenue.

FFO and Core FFO are generally considered by management to be appropriate supplemental measures of our operating and financial performance. FFO is calculated by the Company in accordance with the definition adopted by Nareit. FFO is calculated by the Company as Net income or loss attributable to common stockholders computed in accordance with GAAP, adjusted for gains or losses on sales of previously depreciated operating communities, cumulative effect of a change in accounting principle, impairment write-downs of depreciable real estate assets, write-downs of investments in affiliates due to a decrease in the value of depreciable real estate assets held by those affiliates and depreciation of real estate assets, including similar adjustments for unconsolidated partnerships and joint ventures, including those from a change in control. FFO can help one compare the operating and financial performance of a real estate company between periods or as compared to different companies because adjustments such as (i) gains or losses on sales of previously depreciated property or (ii) real estate depreciation may impact comparability between companies as the amount and timing of these or similar items can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates. Core FFO is the Company's FFO as adjusted for non-core items outlined in the table below. By further adjusting for items that we do not consider to be part of our core business

Copyright © 2026 AvalonBay Communities, Inc. All Rights Reserved

operations, Core FFO can help with the comparison of core operating performance of the Company between periods. A reconciliation of Net income attributable to common stockholders to FFO and to Core FFO is as follows (dollars in thousands):

|                                                                                  | Q2<br>2026  | Q2<br>2025  | YTD<br>2026 | YTD<br>2025 |

(1) Amounts for Q2 and YTD 2026 consist primarily of unrealized gains on property technology and sustainability fund investments, as well as distributions from an unconsolidated real estate venture. Amounts for Q2 and YTD 2025 consist primarily of net unrealized losses on property technology and sustainability fund investments.

(2) Represents changes to the loan loss reserve associated with the Company's lending commitments primarily under its SIP. The timing and amount of any actual losses that will be incurred, if any, is to be determined.

(3) Amount for Q2 and YTD 2026 includes costs related to the proposed merger with Equity Residential of \$12,367 and a write-off of \$4,545 for one development opportunity that the Company determined is no longer probable. Amount for YTD 2025 includes a write-off of \$3,668 for one development opportunity that the Company determined is no longer probable.

(4) Amounts for Q2 and YTD 2026 include gains on sale of non-operating real estate. Amounts for Q2 and YTD 2025 consist primarily of the gain on the sale of a development right.

Interest Coverage is calculated by the Company as Core EBITDAre divided by interest expense. Interest Coverage is presented by the Company because it provides rating agencies and investors an additional means of comparing our ability to service debt obligations to that of other companies. A calculation of Interest Coverage for the three months ended June 30, 2026 is as follows (dollars in thousands):

|                      |            |
|----------------------|------------|
| Core EBITDAre (1)    | \$ 484,261 |
| Interest expense (2) | \$ 72,208  |
| Interest Coverage    | 6.7 times  |

(2) Excludes the impact of non-core hedge accounting activity.

Market Cap Rate is defined by the Company as Projected NOI of a single community for the first 12 months of operations (assuming no repositioning), less an estimate of typical capital expenditure allowance per apartment home, divided by the gross sales price for the community. Projected NOI, as referred to above, represents management's estimate of projected rental revenue minus projected operating expenses before interest, income taxes (if any), depreciation and amortization. For this purpose, management's projection of operating expenses for the community includes a management fee of 2.5% and an estimate of typical market costs for insurance, payroll and other operating expenses for which the Company may have proprietary advantages not available to a typical buyer. The Market Cap Rate, which may be determined in a different manner by others, is a measure frequently used in the real estate industry when determining the appropriate purchase price for a property or estimating the value for a property. Buyers may assign different Market Cap Rates to different communities when determining the appropriate value because they (i) may project different rates of change in operating expenses and capital expenditure estimates and (ii) may project different rates of change in future rental revenue due to different estimates for changes in rent and occupancy levels. The weighted average Market Cap Rate is weighted based on the gross sales price of each community.

Market Rents as reported by the Company are based on the current market rates set by the Company based on its experience in renting apartments and publicly available market data. Market Rents for a period are based on the average Market Rents during that period and do not reflect any impact for cash concessions.

Net Debt-to-Core EBITDAre is calculated by the Company as total debt (secured and unsecured debt, and the Company's Credit Facility and commercial paper program) that is consolidated for financial reporting purposes, less consolidated cash and restricted cash, divided by annualized second quarter 2026 Core EBITDAre. A calculation of Net Debt-to-Core EBITDAre is as follows (dollars in thousands):

(1) Balance at June 30, 2026 excludes \$41,604 of debt discount and deferred financing costs as reflected in unsecured debt, net, \$12,400 of debt discount and deferred financing costs as reflected in notes payable, net, and \$314 of commercial paper discount as reflected in unsecured credit facility and commercial paper, net on the Condensed Consolidated Balance Sheets.

(2) For additional detail, see Definitions and Reconciliations, table 2.

NOI is defined by the Company as total property revenue less direct property operating expenses (including property taxes), and excluding corporate-level income (including management, development and other fees), property management and other indirect operating expenses, net of corporate income, expensed transaction, development and other pursuit costs, net of recoveries, interest expense, net, loss on extinguishment of debt, net, general and administrative expense, (income) loss from unconsolidated investments, SIP interest income, depreciation expense, income tax (benefit) expense, casualty loss, (gain) loss on sale of communities, other real estate activity and net operating income from real estate assets sold or held for sale. The Company considers NOI to be an important and appropriate supplemental performance measure to net income because it helps both investors and management to understand the core operations of a community or communities prior to the allocation of any corporate-level property management overhead or financing-related costs. NOI reflects the operating performance of a community and allows for an easier comparison of the operating performance of individual assets or groups of assets. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impact to overhead as a result of acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets.

Residential NOI represents results attributable to the Company's apartment rental operations, including parking and other ancillary Residential revenue. Reconciliations of NOI and Residential NOI to net income, as well as a breakdown of Residential NOI by operating segment, are as follows (dollars in thousands):

Other Stabilized is composed of completed consolidated communities that the Company owns, which have Stabilized Operations as of January 1, 2026, or which were acquired subsequent to January 1, 2025. Other Stabilized excludes communities that are conducting or are probable to conduct substantial redevelopment activities.

Projected NOI, as used within this release for certain Development communities and in calculating the Market Cap Rate for dispositions, represents management's estimate, as of the date of this release (or as of the date of the buyer's valuation in the case of dispositions), of projected stabilized rental revenue minus projected stabilized operating expenses. For Development communities, Projected NOI is calculated based on the first twelve months of Stabilized Operations following the completion of construction. In calculating the Market Cap Rate, Projected NOI for dispositions is calculated for the first twelve months following the date of the buyer's valuation. Projected stabilized rental revenue represents management's estimate of projected gross potential minus projected stabilized economic vacancy and adjusted for projected stabilized concessions plus projected stabilized other rental revenue. Projected stabilized operating expenses do not include interest, income taxes (if any), depreciation or amortization, or any allocation of corporate-level property management overhead or general and administrative costs. In addition, projected stabilized operating expenses for Development communities do not include property management fee expense. Projected gross potential for Development communities and dispositions is generally based on leased rents for occupied homes and management's best estimate of rental levels for homes which are currently unleased, as well as those homes which will become available for lease during the twelve-month forward period used to develop Projected NOI. The weighted average Projected NOI as a percentage of Total Capital Cost is weighted based on the Company's share of the Total Capital Cost of each community, based on its percentage ownership.

Management believes that Projected NOI of the Development communities, on an aggregated weighted average basis, assists investors in understanding management's estimate of the likely impact on operations of the Development communities when the assets are complete and achieve stabilized occupancy (before allocation of any corporate-level property management overhead, general and administrative costs or interest expense). However, in this release the Company has not given a projection of NOI on a company-wide basis. Given the different dates and fiscal years for which NOI is projected for these communities, the projected allocation of corporate-level property management overhead, general and administrative costs and interest expense to communities under development is complex, impractical to develop, and may not be meaningful. Projected NOI of these communities is not a projection of the Company's overall financial performance or cash flow. There can be no assurance that the communities under development will achieve the Projected NOI as described in this release.

Redevelopment is composed of consolidated communities where substantial redevelopment is in progress or is probable to begin during the current year. Redevelopment is considered substantial when (i) capital invested during the reconstruction effort is expected to exceed the lesser of \$5,000,000 or 10% of the community's pre-redevelopment basis and (ii) physical occupancy is below or is expected to be below 90% during or as a result of the redevelopment activity.

Residential represents results attributable to the Company's apartment rental operations, including parking and other ancillary Residential revenue.

Residential Revenue with Concessions on a Cash Basis is considered by the Company to be a supplemental measure to Residential revenue in conformity with GAAP to help investors evaluate the impact of both current and historical concessions on GAAP-based Residential revenue and to more readily enable comparisons to revenue as reported by other companies. In addition, Residential Revenue with Concessions on a Cash Basis allows an investor to understand the historical trend in cash concessions.

A reconciliation of Same Store Residential revenue in conformity with GAAP to Residential Revenue with Concessions on a Cash Basis is as follows (dollars in thousands):

Same Store is composed of consolidated communities where a comparison of operating results from the prior year to the current year is meaningful as these communities were owned and had Stabilized Operations, as defined below, as of the beginning of the respective prior year period. Therefore, for 2026 operating results, Same Store is composed of consolidated communities that have Stabilized Operations as of January 1, 2025, are not conducting or are not probable to conduct substantial redevelopment activities and are not held for sale or probable for disposition within the current year.

Stabilized Operations is defined as operations of a community that occur after the earlier of (i) attainment of 90% physical occupancy or (ii) the one-year anniversary of completion of development or redevelopment.

Total Capital Cost includes all capitalized costs projected to be or actually incurred to develop the respective Development or Redevelopment community, including land acquisition costs, construction costs, real estate taxes, capitalized interest and loan fees, permits, professional fees, allocated development overhead and other regulatory fees and a contingency estimate, offset by proceeds from the sale of any associated land or improvements, all as determined in accordance with GAAP. Total Capital Cost also includes costs incurred related to first generation commercial tenants, such as tenant improvements and leasing commissions. For Redevelopment communities, Total Capital Cost excludes costs incurred prior to the start of redevelopment when indicated. With respect to communities where development or redevelopment was completed in a prior period or the current period, Total Capital Cost reflects the actual cost incurred, plus any contingency estimate made by management. Total Capital Cost for communities identified as having joint venture ownership, either during construction or upon construction completion, represents the total projected joint venture contribution amount. For joint ventures not in construction, Total Capital Cost is equal to gross real estate cost.

Unconsolidated Development is composed of communities that are either currently under construction, or were under construction and were completed during the current year, in which we have an indirect ownership interest through our investment interest in an unconsolidated joint venture. These communities may be partially or fully complete and operating.

Unencumbered NOI as calculated by the Company represents NOI generated by real estate assets unencumbered by outstanding secured notes payable as of June 30, 2026 as a percentage of total NOI generated by real estate assets. The Company believes that current and prospective unsecured creditors of the Company view Unencumbered NOI as one indication of the borrowing capacity of the Company. Therefore, when reviewed together with the Company's Interest Coverage, EBITDA and cash flow from operations, the Company believes that investors and creditors view Unencumbered NOI as a useful supplemental measure for determining the financial flexibility of an entity. A calculation of Unencumbered NOI for the six months ended June 30, 2026 is as follows (dollars in thousands):

Commenting on the Company's results, Benjamin W. Schall, President and CEO of the Company, said "Our second quarter was strong, exceeding expectations, and the results reflect the enduring qualities of our business — a high-quality portfolio in supply-constrained markets, a proven operating platform, and teams that execute with consistency and discipline.

"We are proud of AvalonBay's over 30-year history as one of the leading public multi-family operators and developers. The proposed combination with Equity Residential now provides the opportunity to draw on the foundational strengths of two exceptional organizations to create the premier company in rental housing in the country. The scale, the talent, the portfolio, the operating capabilities and the investment opportunities all come together in ways that neither company could achieve alone. We're extremely excited for our future and look forward to sharing more later this year."

#### Same Store Operating Results for the Three Months Ended June 30, 2026 Compared to the Prior Year Period

Same Store Residential revenue increased \$10,958,000, or 1.6%, to \$709,586,000. Same Store Residential operating expenses increased \$6,134,000, or 2.9%, to \$221,034,000 and Same Store Residential NOI increased \$4,824,000, or 1.0%, to \$488,552,000.

Commenting on the Company's operating results, Sean J. Breslin, Chief Operating Officer, said, "A healthier demand environment, easing new supply, and disciplined execution by our teams delivered strong rent growth and lower operating expenses in the first half of the year, enabling us to increase Same Store NOI guidance for the full year. These factors set a strong foundation as we bring two organizations together and position the combined company to produce healthy results in the quarters ahead."

#### Same Store Operating Results for the Six Months Ended June 30, 2026 Compared to the Prior Year Period

Same Store Residential revenue increased \$21,953,000, or 1.6%, to \$1,412,006,000. Same Store Residential operating expenses increased \$16,053,000, or 3.7%, to \$444,551,000 and Same Store Residential NOI increased \$5,900,000, or 0.6%, to \$967,455,000.

#### Development Activity

During the three months ended June 30, 2026, the Company completed the development of Avalon Parsippany, located in Parsippany, NJ. Avalon Parsippany contains 410 apartment homes and was constructed for a Total Capital Cost of \$145,000,000.

During the three months ended June 30, 2026, the Company started the construction of three apartment communities:

- Avalon Townhome Collection Central Park, located in Denver, CO;
- Kansa Plymouth, located in Plymouth, MA; and
- Avalon Dulles Innovation, located in Herndon, VA.

These communities are expected to contain an aggregate of 801 apartment homes and 5,000 square feet of commercial space for an estimated Total Capital Cost of \$283,000,000. Avalon Townhome Collection Central Park is being developed through the Company's Developer Funding Program ("DFP").

During the six months ended June 30, 2026, the Company:

- completed the development of two wholly-owned communities containing an aggregate of 755 apartment homes for a Total Capital Cost of \$247,000,000; and
- started the construction of five apartment communities. These communities are expected to contain an aggregate of 1,247 apartment homes. Estimated Total Capital Cost for these communities is \$471,000,000.

At June 30, 2026, the Company had 27 wholly-owned Development communities under construction that are expected to contain 9,064 apartment homes and 74,000 square feet of commercial space. Estimated Total Capital Cost for these communities is \$3,526,000,000.

#### **Proposed Merger with Equity Residential**

On May 21, 2026, Equity Residential (NYSE: EQR) and the Company announced a definitive agreement to combine in an all-stock merger of equals, creating one of the country's leading real estate companies with the differentiated scale, capabilities, and balance sheet strength to expand margins, accelerate growth, and redefine leadership in rental housing. The combined company will have a pro forma equity market capitalization of approximately \$53 billion and a total enterprise value of approximately \$71 billion, with more than 180,000 rental apartments (data as of July 17, 2026).

On June 8, 2026, the combined company announced the executive leadership team, led by Benjamin W. Schall, who will serve as the President and CEO of the combined company.

Under the terms of the merger agreement, the combined company's board will consist of 14 trustees, including seven members of the current Equity Residential board and seven members of the current AvalonBay board. The following members of the Equity Residential board will serve on the combined company board as of the closing of the merger: David J. Neithercut, Angela M. Aman, Chris Carr, Mary Kay Haben, Ann C. Hoff, Nina P. Jones and Stephen E. Sterrett. The following members of the AvalonBay board will serve on the combined company board as of the closing of the merger: Timothy J. Naughton, Benjamin W. Schall, Terry S. Brown, Conor C. Flynn, Christopher B. Howard, Charles E. Mueller Jr., and Susan Swanezy. Pursuant to the merger agreement, Mr. Sterrett will be appointed to serve as the Chairman of the combined company board.

On August 12, 2026, the Company will hold its special meeting of stockholders and Equity Residential will hold its special meeting of shareholders related to the proposed merger. For further information, please refer to the definitive joint proxy statement/prospectus filed by each of the Company and Equity Residential with the Securities and Exchange Commission (the "SEC") on July 13, 2026.

## Forward-Looking Statements

This release, including its Attachments, contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. The Company's forward-looking statements generally use the words "believe," "expect," "anticipate," "intend," "estimate," "assume," "project," "plan," "may," "shall," "will," "pursue," "outlook" and other similar expressions that indicate future events and trends and do not report historical matters. These statements, among other things, address or reflect the Company's intent, belief, forecasts, assumptions or expectations with respect to: development, redevelopment, acquisition or disposition of communities; the timing and cost of completion of communities under development or redevelopment; the timing of lease-up, occupancy and stabilization of communities; pursuit of land for future development; the anticipated operating performance of communities; cost, yield, revenue, NOI and earnings estimates; the impact of landlord-tenant laws and rent regulations, including rent caps; the Company's expansion into new regions; declaration or payment of dividends; joint venture activities; the Company's policies regarding investments, indebtedness, acquisitions, dispositions, financings and other matters; the Company's qualification as a REIT under the Internal Revenue Code of 1986, as amended; the real estate markets in regions where the Company operates and in general; the availability of debt and equity financing; interest rates, inflation, tariffs and other economic conditions and their potential impacts; trends affecting the Company's financial condition or results of operations; legal and regulatory changes; the impact of legal proceedings; the proposed transaction between the Company and Equity Residential; the expected timing and completion of the proposed transaction; and the anticipated benefits of the proposed transaction.

The Company cannot assure the future results or outcome of the matters described in these statements; rather these statements reflect the Company's current expectations of the outcomes of the matters discussed. The Company does not undertake a duty to update these forward-looking statements, and therefore they may not represent the

Company's estimates and assumptions after the date of this release. You should not rely on forward-looking statements because they involve risks and uncertainties and other factors, some of which are beyond the Company's control. These risks, uncertainties and other factors may cause the Company's actual results, performance or achievements to differ materially from the anticipated future results, performance or achievements expressed or implied by these forward-looking statements. You should carefully review the discussion under Part I, Item 1A. "Risk Factors" of the Company's Form 10-K for the year ended December 31, 2025 and Part II, Item 1A. "Risk Factors" in subsequent quarterly reports on Form 10-Q, as well as the risks described in the Definitive Joint Proxy Statement/Prospectus (as defined below) that has been filed with the SEC in connection with the proposed transaction and is available from the sources indicated below, for further discussion of risks associated with forward-looking statements.

Some of the factors that could cause the Company's actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, but are not limited to, the following: the Company may fail to secure development opportunities due to an inability to reach agreements with third parties to obtain land at attractive prices or to obtain desired zoning and other local approvals; the Company may abandon or defer development opportunities for a number of reasons, including changes in local market conditions which make development less desirable, increases in costs of development, increases in the cost of capital or lack of capital availability, resulting in losses; construction costs of a community may exceed original estimates; the Company may be unable to complete planned dispositions, or may complete such transactions on different timing or terms than expected; the Company may not complete construction and lease-up of communities under development or redevelopment on schedule, resulting in increased interest costs and construction costs and a decrease in expected rental revenues; occupancy rates and market rents may be adversely affected by competition and local economic and market conditions which are beyond the Company's control; the Company's cash flows from operations and access to cost-effective capital may be insufficient for the development of the Company's pipeline, which could limit the Company's pursuit of opportunities; an outbreak of disease or other public health event may affect the multifamily industry and general economy; the Company's cash flows may be insufficient to meet required payments of principal and interest, and the Company may be unable to refinance existing indebtedness or the terms of such refinancing may not be as favorable as the terms of existing

indebtedness; the Company may be unsuccessful in its management of joint ventures and the REIT vehicles that are used with certain joint ventures; the Company may experience a casualty loss, natural disaster or severe weather event, including those caused by climate change; new or existing laws and regulations implementing rent control or rent stabilization, or otherwise limiting the Company's ability to increase rents, charge non-rent fees or evict tenants, may impact its revenue or increase costs; the Company's expectations, estimates and assumptions as of the date of this filing regarding legal proceedings may change; the Company's assumptions and expectations in its financial outlook may prove to be too optimistic; the Company may choose to pay dividends in its stock instead of cash, which may result in stockholders having to pay taxes with respect to such dividends in excess of the cash received, if any; investments made under the SIP may not be repaid as expected or the development may not be completed on schedule, which could require the Company to engage in litigation, foreclosure actions, and/or first party project completion to recover its investment, which may not be recovered in full or at all in such event; the Company may be unable to complete the proposed transaction with Equity Residential on the proposed terms or on the anticipated timeline, or at all, including as a result of the failure to obtain the required respective stockholder or shareholder, as applicable, approval; the Company may not realize the anticipated benefits of the proposed transaction due to delay in completing the proposed transaction; the Company may face significant transaction costs and/or unknown or inestimable liabilities relating to the proposed transaction; the Company may face disruptions resulting from the proposed transaction, including the diversion of management's attention from ongoing business operations, which may harm the Company's business during the pendency of the proposed transaction or otherwise; the Company may face certain restrictions during the pendency of the business combination that may impact its ability to pursue certain business opportunities or strategic transactions; the possibility that the business combination may be more expensive to complete than anticipated, including as a result of unexpected factors or events; the occurrence of certain events that may result in the termination of the merger agreement; and the Company's financial performance may be affected by potential business uncertainty during the pendency of the business combination.

## Definitions and Reconciliations

Non-GAAP financial measures and other capitalized terms, as used in this earnings release, are defined, reconciled and further explained on Attachment 11, Definitions and Reconciliations of Non-GAAP Financial Measures and Other Terms. Attachment 11 is included in the full earnings release available at the Company's website at <https://investors.avalonbay.com>.

## No Offer or Solicitation

This press release is for informational purposes only and is not intended to, and shall not, constitute an offer to sell or the solicitation of an offer to sell or the solicitation of an offer to buy any securities or a solicitation of any vote or approval, nor shall there be any offer, solicitation or sale of securities in any jurisdiction in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act.

- (1) Same Store operating expenses exclude indirect costs for corporate-level property management and other support-related services.
- (2) Property taxes increased in Q2 and YTD 2026 compared to the prior year periods primarily due (i) increased rates and assessments across the portfolio, (ii) a greater benefit from tax appeals realized in the prior year period, and (iii) the expiration of property tax incentive programs primarily at certain New York City properties. The expiration of property tax programs increased property taxes by \$1,281 in Q2 2026 and \$2,728 YTD 2026.
- (3) Payroll costs increased in Q2 and YTD 2026 over the prior year period primarily due to growth in average compensation, partially offset by a reduction in the number of onsite associates and reduced overtime costs.
- (4) Repairs and maintenance increased in Q2 and YTD 2026 over the prior year periods due to the continued deployment of smart home technology, partially offset by an increase in maintenance rebates for Q2 and YTD 2026 and a decrease in turn-based maintenance costs for YTD 2026.
- (5) Utilities increased in Q2 and YTD 2026 over the prior year periods primarily due to higher energy costs in New England and the Mid-Atlantic, which was driven by increased consumption and higher rates during the winter and increased trash and recycling costs in Q2 2026 which were largely offset by trash collections revenue.
- (6) Office operations decreased in Q2 and YTD 2026 over the prior year periods primarily due to a decrease in reserves for uncollectible accounts and reduced contract labor costs.
- (7) Insurance is composed of premiums, expected claims activity and associated reductions from receipt of claims recoveries. The increase for Q2 and YTD 2026 from the prior year periods is primarily due to increased insurance claims activity, partially offset by decreased insurance premiums. Insurance costs can be variable due to the amounts and timing of estimated and actual claim activity and the related recoveries received.

- (1) Rates are as of June 30, 2026 and, for secured and unsecured debt, include costs of financing such as credit enhancement fees, trustees' fees, the impact of interest rate hedges and mark-to-market adjustments.
- (2) Excludes the Company's (i) Credit Facility, (ii) commercial paper and (iii) any associated issuance discount, mark-to-market discounts and deferred financing costs, if applicable.
- (3) Includes the \$550,000 term loan that has been swapped to an effective fixed rate of 4.44% using interest rate hedges.
- (4) Represents amounts outstanding at June 30, 2026 under the Company's (i) Credit Facility and (ii) unsecured commercial paper program, which is backstopped by, and reduces the borrowing capacity of, the Credit Facility.
- (5) See Attachment 11 - Definitions and Reconciliations of Non-GAAP Financial Measures and Other Terms.
- (6) Capitalization Value represents the Company's Combined EBITDA for operating communities that the Company has owned for at least 12 months as of June 30, 2026, capitalized at a rate of 5.75% per annum, plus the book value of Development communities and real estate communities acquired. For discussion of other defined terms, see "Debt Covenant Compliance" in Attachment 11 - Definitions and Reconciliations of Non-GAAP Financial Measures and Other Terms.
- (7) The information about the Company's unsecured senior notes covenants shows compliance with selected covenants under the Company's 1998 Indenture, under which debt securities are outstanding with maturity dates through 2047, subject to prepayment or redemption at the Company's election. See "Debt Covenant Compliance" in Attachment 11 - Definitions and Reconciliations of Non-GAAP Financial Measures and Other Terms. Different covenants apply to debt securities outstanding under the Company's 2018 Indenture and 2024 Indenture.
- (8) Total Assets represents the sum of the Company's undepreciated real estate assets and other assets, excluding accounts receivable. See "Debt Covenant Compliance" in Attachment 11 - Definitions and Reconciliations of Non-GAAP Financial Measures and Other Terms.

*This release, including its attachments, contains certain non-GAAP financial measures and other terms. The definitions and calculations of these non-GAAP financial measures and other terms may differ from the definitions and methodologies used by other REITs and, accordingly, may not be comparable. The non-GAAP financial measures referred to below should not be considered an alternative to net income as an indication of our performance. In addition, these non-GAAP financial measures do not represent cash generated from operating activities in accordance with GAAP and therefore should not be considered as an alternative measure of liquidity or as indicative of cash available to fund cash needs.*

Average Monthly Revenue per Home, as calculated for certain Development communities under construction and in lease-up, reflects management's projected stabilized rents net of estimated stabilized concessions, including estimated stabilized other revenue and excluding projected commercial revenue. Projected stabilized rents are based on one or more of the following: (i) actual average leased rents on apartments leased through quarter end, (ii) projected rollover rents on apartments leased through quarter end where the lease term expires within the first twelve months of Stabilized Operations and (iii) Market Rents on unleased homes.

Average Monthly Revenue per Occupied Home is calculated by the Company as Residential revenue in accordance with GAAP, divided by the weighted average number of occupied apartment homes.

Capitalized Community Expenditures includes Asset Preservation Capex and NOI Enhancing Capex.

- Asset Preservation Capex represents capital expenditures that the Company does not expect will directly result in increased revenue or expense savings.
- NOI Enhancing Capex represents capital expenditures that the Company expects will directly result in increased revenue or expense savings, and excludes any capital expenditures for redevelopment activities.

Both Asset Preservation Capex and NOI Enhancing Capex exclude costs associated with our Development communities under construction, including post-construction close out costs, as well as capital expenditures associated with newly acquired communities that were contemplated as part of the initial investment in the community. The Company's Residential Capitalized Community Expenditures for Same Store and Non-Same Store operating portfolios during the six months ended June 30, 2026 are as follows (dollars in thousands):

Debt Covenant Compliance ratios for the Unsecured Line of Credit Covenants show the Company's compliance with selected covenants provided in the Company's Seventh Amended and Restated Revolving Loan Agreement (the "Credit Facility") dated as of April 3, 2025 and the Company's Term Loan Agreement, dated as of April 3, 2025 (the "Term Loan"), each of which has been filed as an exhibit to the Company's SEC reports. The ratios for the Unsecured Senior Notes Covenants show only the Company's compliance with selected covenants provided in the Company's Indenture dated as of January 16, 1998, as supplemented by the First Supplemental Indenture dated as of January 20, 1998, Second Supplemental Indenture dated as of July 7, 1998, Amended and Restated Third Supplemental Indenture dated as of July 20, 2000, Fourth Supplemental Indenture dated as of September 18, 2006 and Fifth Supplemental Indenture dated as of November 21, 2014 (collectively, the "1998 Indenture"), which have been filed as exhibits to the Company's SEC reports. Different covenants apply to debt securities outstanding under the Company's Indenture dated as of February 23, 2018, as supplemented by the First Supplemental Indenture dated as of March 26, 2018 and the Second Supplemental Indenture dated as of May 29, 2018 (collectively the "2018 Indenture"), and under the Company's Indenture dated as of February 23, 2024, as supplemented by the First Supplemental Indenture dated as of May 14, 2024, the Second Supplemental Indenture dated as of July 10, 2025 and the Third Supplemental Indenture dated as of December 1, 2025 (collectively the "2024 Indenture"), which have been filed as exhibits to the Company's SEC reports. Compliance with selected covenants under the 2018 Indenture and 2024 Indenture are excluded from the presentation of Debt Covenant Compliance in this release.

The Debt Covenant Compliance ratios are provided only to show the Company's compliance with certain covenants contained in the 1998 Indenture which are more restrictive than the 2018 Indenture and 2024 Indenture and in the Company's Credit Facility and Term Loan, as of the date reported. These ratios should not be used for any other purpose, including without limitation to

evaluate the Company's financial condition or results of operations, nor do they indicate the Company's covenant compliance as of any other date or for any other period. The capitalized terms in the disclosure are defined in the Indenture or the Credit Facility and Term Loan, and may differ materially from similar terms (i) used elsewhere in this release and the Attachments and (ii) used by other companies that present information about their covenant compliance. For risks related to failure to comply with these covenants, see "Risk Factors – Risks related to indebtedness" and other risks discussed in the Company's 2025 Annual Report on Form 10-K and the Company's other reports filed with the SEC.

Development is composed of consolidated communities that are either currently under construction, or were under construction and were completed during the current year. These communities may be partially or fully complete and operating.

DownREIT Units means units representing limited partnership interests in the "downREIT" partnership that acquired the Dallas-Fort Worth portfolio of six communities in April 2025. Each DownREIT Unit is entitled to receive quarterly distributions at the same rate as quarterly dividends on a share of the Company's common stock (pro rated for the time outstanding during the first quarter of issuance). Following the one-year anniversary of the closing date, each holder of a DownREIT Unit will have the right to initiate a transaction in which each DownREIT Unit may be redeemed for a cash amount related to the then-current trading price of one share of the Company's common stock or, at the Company's election, one share of the Company's common stock.

EBITDA, EBITDAre and Core EBITDAre are considered by management to be supplemental measures of our financial performance. EBITDA is defined by the Company as net income or loss computed in accordance with GAAP before interest expense, income taxes, depreciation and amortization. EBITDAre is calculated by the Company in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("Nareit"), as EBITDA plus or minus losses and gains on the disposition of depreciated property, plus casualty loss and impairment write-downs of depreciated property, with adjustments to reflect the Company's share of EBITDAre of unconsolidated entities. Core EBITDAre is the Company's EBITDAre as adjusted for non-core items outlined in the table below. By further adjusting for items that are not considered part of the Company's core business operations, Core EBITDAre can help one compare the core operating and financial performance of the Company between periods. A reconciliation of EBITDA, EBITDAre and Core EBITDAre to net income is as follows (dollars in thousands):

(1) Includes joint venture interest, taxes, depreciation, gain on dispositions of depreciated real estate and impairment losses, if applicable, included in net income.

Economic Gain is calculated by the Company as the gain on sale in accordance with GAAP, less accumulated depreciation through the date of sale and any other adjustments that may be required under GAAP accounting. Management generally considers Economic Gain to be an appropriate supplemental measure to gain on sale in accordance with GAAP because it helps investors to understand the relationship between the cash proceeds from a sale and the cash invested in the sold community. The Economic Gain for disposed communities is based on their respective final settlement statements. A reconciliation of the aggregate Economic Gain to the aggregate gain on sale in accordance with GAAP for the wholly-owned communities disposed of during the six months ended June 30, 2026 is as follows (dollars in thousands):

TABLE 3

|                                          | YTD 2026   |

| Economic Gain                            | \$ 35,836  |

Economic Occupancy is defined as total possible Residential revenue less vacancy loss as a percentage of total possible Residential revenue. Total possible Residential revenue (also known as "gross potential") is determined by valuing occupied units at contract rates and vacant units at Market Rents. Vacancy loss is determined by valuing vacant units at current Market Rents. By measuring vacant apartments at their Market Rents, Economic Occupancy takes into account the fact that apartment homes of different sizes and locations within a community have different economic impacts on a community's gross revenue.

FFO and Core FFO are generally considered by management to be appropriate supplemental measures of our operating and financial performance. FFO is calculated by the Company in accordance with the definition adopted by Nareit. FFO is calculated by the Company as Net income or loss attributable to common stockholders computed in accordance with GAAP, adjusted for gains or losses on sales of previously depreciated operating communities, cumulative effect of a change in accounting principle, impairment write-downs of depreciable real estate assets, write-downs of investments in affiliates due to a decrease in the value of depreciable real estate assets held by those affiliates and depreciation of real estate assets, including similar adjustments for unconsolidated partnerships and joint ventures, including those from a change in control. FFO can help one compare the operating and financial performance of a real estate company between periods or as compared to different companies because adjustments such as (i) gains or losses on sales of previously depreciated property or (ii) real estate depreciation may impact comparability between companies as the amount and timing of these or similar items can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates. Core FFO is the Company's FFO as adjusted for non-core items outlined in the table below. By further adjusting for items that we do not consider to be part of our core business operations, Core FFO can help with the comparison of core operating performance of the Company between periods. A reconciliation of Net income attributable to common stockholders to FFO and to Core FFO is as follows (dollars in thousands):

(1) Amounts for Q2 and YTD 2026 consist primarily of unrealized gains on property technology and sustainability fund investments, as well as distributions from an unconsolidated real estate venture. Amounts for Q2 and YTD 2025 consist primarily of net unrealized losses on property technology and sustainability fund investments.

(2) Represents changes to the loan loss reserve associated with the Company's lending commitments primarily under its SIP. The timing and amount of any actual losses that will be incurred, if any, is to be determined.

(3) Amount for Q2 and YTD 2026 includes costs related to the proposed merger with Equity Residential of \$12,367 and a write-off of \$4,545 for one development opportunity that the Company determined is no longer probable. Amount for YTD 2025 includes a write-off of \$3,668 for one development opportunity that the Company determined is no longer probable.

(4) Amounts for Q2 and YTD 2026 include gains on sale of non-operating real estate. Amounts for Q2 and YTD 2025 consist primarily of the gain on the sale of a development right.

Interest Coverage is calculated by the Company as Core EBITDAre divided by interest expense. Interest Coverage is presented by the Company because it provides rating agencies and investors an additional means of comparing our ability to service debt obligations to that of other companies. A calculation of Interest Coverage for the three months ended June 30, 2026 is as follows (dollars in thousands):

**TABLE 5**

(2) Excludes the impact of non-core hedge accounting activity.

Like-Term Effective Rent Change for an individual apartment home represents the percentage change in effective rent between two leases of the same lease term category for the same apartment. The Company defines effective rent as the contractual rent for an apartment less amortized concessions and discounts. Like-Term Effective Rent Change with respect to multiple apartment

## Attachment 11

homes represents an average. New Move-In Like-Term Effective Rent Change is the change in effective rent between the contractual rent for a resident who moves out of an apartment, and the contractual rent for a resident who moves into the same apartment with the same lease term category. Renewal Like-Term Effective Rent Change is the change in effective rent between two consecutive leases of the same lease term category for the same resident occupying the same apartment.

**Market Cap Rate** is defined by the Company as Projected NOI of a single community for the first 12 months of operations (assuming no repositioning), less an estimate of typical capital expenditure allowance per apartment home, divided by the gross sales price for the community. Projected NOI, as referred to above, represents management's estimate of projected rental revenue minus projected operating expenses before interest, income taxes (if any), depreciation and amortization. For this purpose, management's projection of operating expenses for the community includes a management fee of 2.5% and an estimate of typical market costs for insurance, payroll and other operating expenses for which the Company may have proprietary advantages not available to a typical buyer. The Market Cap Rate, which may be determined in a different manner by others, is a measure frequently used in the real estate industry when determining the appropriate purchase price for a property or estimating the value for a property. Buyers may assign different Market Cap Rates to different communities when determining the appropriate value because they (i) may project different rates of change in operating expenses and capital expenditure estimates and (ii) may project different rates of change in future rental revenue due to different estimates for changes in rent and occupancy levels. The weighted average Market Cap Rate is weighted based on the gross sales price of each community.

**Market Rents** as reported by the Company are based on the current market rates set by the Company based on its experience in renting apartments and publicly available market data. Market Rents for a period are based on the average Market Rents during that period and do not reflect any impact for cash concessions.

**Net Debt-to-Core EBITDAre** is calculated by the Company as total debt (secured and unsecured debt, and the Company's Credit Facility and commercial paper program) that is consolidated for financial reporting purposes, less consolidated cash and restricted cash, divided by annualized second quarter 2026 Core EBITDAre. A calculation of Net Debt-to-Core EBITDAre is as follows (dollars in thousands):

(1) Balance at June 30, 2026 excludes \$41,604 of debt discount and deferred financing costs as reflected in unsecured debt, net, \$12,400 of debt discount and deferred financing costs as reflected in notes payable, net, and \$314 of commercial paper discount as reflected in unsecured credit facility and commercial paper, net on the Condensed Consolidated Balance Sheets.

(2) For additional detail, see Attachment 11 - Definitions and Reconciliations of Non-GAAP Financial Measures and Other Terms, table 2.

**NOI** is defined by the Company as total property revenue less direct property operating expenses (including property taxes), and excluding corporate-level income (including management, development and other fees), property management and other indirect operating expenses, net of corporate income, expensed transaction, development and other pursuit costs, net of recoveries, interest expense, net, loss on extinguishment of debt, net, general and administrative expense, (income) loss from unconsolidated investments, SIP interest income, depreciation expense, income tax (benefit) expense, casualty loss, (gain) loss on sale of communities, other real estate activity and net operating income from real estate assets sold or held for sale. The Company considers NOI to be an important and appropriate supplemental performance measure to net income because it helps both investors and management to understand the core operations of a community or communities prior to the allocation of any corporate-level property management overhead or financing-related costs. NOI reflects the operating performance of a community and allows for an easier comparison of the operating performance of individual assets or groups of assets. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impact to overhead as a result of acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets.

Residential NOI represents results attributable to the Company's apartment rental operations, including parking and other ancillary Residential revenue. Reconciliations of NOI and Residential NOI to net income, as well as a breakdown of Residential NOI by operating segment, are as follows (dollars in thousands):

Other Stabilized is composed of completed consolidated communities that the Company owns, which have Stabilized Operations as of January 1, 2026, or which were acquired subsequent to January 1, 2025. Other Stabilized excludes communities that are conducting or are probable to conduct substantial redevelopment activities.

Projected NOI, as used within this release for certain Development communities and in calculating the Market Cap Rate for dispositions, represents management's estimate, as of the date of this release (or as of the date of the buyer's valuation in the case of dispositions), of projected stabilized rental revenue minus projected stabilized operating expenses. For Development communities, Projected NOI is calculated based on the first twelve months of Stabilized Operations following the completion of construction. In calculating the Market Cap Rate, Projected NOI for dispositions is calculated for the first twelve months following the date of the buyer's valuation. Projected stabilized rental revenue represents management's estimate of projected gross potential minus projected stabilized economic vacancy and adjusted for projected stabilized concessions plus projected stabilized other rental revenue. Projected stabilized operating expenses do not include interest, income taxes (if any), depreciation or amortization, or any allocation of corporate-level property management overhead or general and administrative costs. In addition, projected stabilized operating expenses for Development communities do not include property management fee expense. Projected gross potential for Development communities and dispositions is generally based on leased rents for occupied homes and management's best estimate of rental levels for homes which are currently unleased, as well as those homes which will become available for lease during the twelve-month forward period used to develop Projected NOI. The weighted average Projected NOI as a percentage of Total Capital Cost is weighted based on the Company's share of the Total Capital Cost of each community, based on its percentage ownership.

Management believes that Projected NOI of the Development communities, on an aggregated weighted average basis, assists investors in understanding management's estimate of the likely impact on operations of the Development communities when the assets are complete and achieve stabilized occupancy (before allocation of any corporate-level property management overhead, general and administrative costs or interest expense). However, in this release the Company has not given a projection of NOI on a company-wide basis. Given the different dates and fiscal years for which NOI is projected for these communities, the projected allocation of corporate-level property management overhead, general and administrative costs and interest expense to communities under development is complex, impractical to develop, and may not be meaningful. Projected NOI of these communities is not a projection of the Company's overall financial performance or cash flow. There can be no assurance that the communities under development will achieve the Projected NOI as described in this release.

Redevelopment is composed of consolidated communities where substantial redevelopment is in progress or is probable to begin during the current year. Redevelopment is considered substantial when (i) capital invested during the reconstruction effort is expected to exceed the lesser of \$5,000,000 or 10% of the community's pre-redevelopment basis and (ii) physical occupancy is below or is expected to be below 90% during or as a result of the redevelopment activity.

Residential represents results attributable to the Company's apartment rental operations, including parking and other ancillary Residential revenue.

Residential Revenue with Concessions on a Cash Basis is considered by the Company to be a supplemental measure to Residential revenue in conformity with GAAP to help investors evaluate the impact of both current and historical concessions on GAAP-based Residential revenue and to more readily enable comparisons to revenue as reported by other companies. In addition, Residential Revenue with Concessions on a Cash Basis allows an investor to understand the historical trend in cash concessions.

Same Store is composed of consolidated communities where a comparison of operating results from the prior year to the current year is meaningful as these communities were owned and had Stabilized Operations, as defined below, as of the beginning of the respective prior year period. Therefore, for 2026 operating results, Same Store is composed of consolidated communities that have Stabilized Operations as of January 1, 2025, are not conducting or are not probable to conduct substantial redevelopment activities and are not held for sale or probable for disposition within the current year.

Stabilized Operations is defined as operations of a community that occur after the earlier of (i) attainment of 90% physical occupancy or (ii) the one-year anniversary of completion of development or redevelopment.

Total Capital Cost includes all capitalized costs projected to be or actually incurred to develop the respective Development or Redevelopment community, including land acquisition costs, construction costs, real estate taxes, capitalized interest and loan fees, permits, professional fees, allocated development overhead and other regulatory fees and a contingency estimate, offset by proceeds from the sale of any associated land or improvements, all as determined in accordance with GAAP. Total Capital Cost also includes costs incurred related to first generation commercial tenants, such as tenant improvements and leasing commissions. For Redevelopment communities, Total Capital Cost excludes costs incurred prior to the start of redevelopment when indicated. With respect to communities where development or redevelopment was completed in a prior period or the current period, Total Capital Cost reflects the actual cost incurred, plus any contingency estimate made by management. Total Capital Cost for communities identified as having joint venture ownership, either during construction or upon construction completion, represents the total projected joint venture contribution amount. For joint ventures not in construction, Total Capital Cost is equal to gross real estate cost.

Unconsolidated Development is composed of communities that are either currently under construction, or were under construction and were completed during the current year, in which we have an indirect ownership interest through our investment interest in an unconsolidated joint venture. These communities may be partially or fully complete and operating.

Unencumbered NOI as calculated by the Company represents NOI generated by real estate assets unencumbered by outstanding secured notes payable as of June 30, 2026 as a percentage of total NOI generated by real estate assets. The Company believes that current and prospective unsecured creditors of the Company view Unencumbered NOI as one indication of the borrowing capacity of the Company. Therefore, when reviewed together with the Company's Interest Coverage, EBITDA and cash flow from operations, the Company believes that investors and creditors view Unencumbered NOI as a useful supplemental measure for determining the financial flexibility of an entity. A calculation of Unencumbered NOI for the six months ended June 30, 2026 is as follows (dollars in thousands):
